RE: Scope determination on antidumping duty order on helical spring lock washers from the People's Republic of China (A-570-822)

1. On 07/08/2013, in response to a request by United Steel and Fasteners, Inc., Commerce issued a final scope determination that United Steel and Fasteners, Inc.'s AREMA washers, which United Steel and Fasteners, Inc., imports, are within the scope of the antidumping duty order on helical spring lock washers from the People's Republic of China (A-570-822).
2. Because the design of the imported product (AREMA washers) facilitates the same functionality characteristics of helical spring lock washers as described by the scope of the antidumping duty order, Commerce found this product to be within the scope of the order. Specifically, Commerce found that AREMA washers' primary function is to 1) to act as a spring to compensate for developed looseness between the component parts of a fastened assembly, 2) to distribute the load over a larger area for screw or bolts, and 3) to provide a hardened bearing surface.
3. CBP should suspend liquidation of all unliquidated entries of helical spring lock washers from the People's Republic of China, including United Steel and Fasteners, Inc.'s AREMA washers imported by United Steel and Fasteners, Inc., described above, made on or after 10/18/1993, the date on which entries of helical spring lock washers from the People's Republic of China were suspended for antidumping purposes (see, message number 4295112 dated 10/22/1993), and collect cash deposits on all such entries.
4. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by O1:BH.)
5. There are no restrictions on the release of this information.
